ABOUT ME

I am a Software Engineer and Solution Architect specializing in the full lifecycle of software system development, including architecture design, development, testing, deployment, and maintenance. My focus is on designing and building cloud-native, scalable, and secure enterprise applications using modern technologies and architectural principles. I work across a wide range of platforms and frameworks such as C#, .NET Core, CQRS, MediatR, EF Core, Dapper, Clean Architecture, API Gateway, and Cross-Cutting Concerns. I apply Modular Monolithic and Microservices design patterns with Dependency Injection, IdentityServer (3 & 4), SSO, and MFA for secure and maintainable solutions. I design and automate Azure CI/CD pipelines using Azure DevOps to enable seamless continuous integration and deployment for distributed systems. My expertise also extends to data engineering and analytics, covering Data Warehousing, SSRS, SSIS, MSBI, Power BI, and advanced areas such as Machine Learning, NLP, Tokenization, Lemmatization, Generative AI (RAG), and Vector Databases. I am passionate about Software Architecture Design, Localization and Globalization strategies, and delivering innovative, user-focused solutions that align technology with business goals

WORK EXPERIENCE

Senior Software Developer (Manager) | Dependable Solutions Inc's | El Segundo | Dec 2023-Nov 2025
Key Responsibilities & Achievements.
Leadership & Team Management

- Led cross-functional teams to deliver high-quality software products on schedule and within budget.
- Managed team operations including planning, recruitment, onboarding, performance evaluations, and sprint planning.
- Provided technical leadership and mentorship, conducted rigorous code reviews, and drove continuous improvement in engineering practices.
- Collaborated with stakeholders and senior leadership to define requirements, prioritize features, and report project progress.

Software Architecture & Development

- Designed, developed, and maintained scalable, high-performance systems and full-stack solutions (APIs, UI, databases, integrations).
- Led API integrations across multiple internal systems and third-party platforms used for licensing and royalty workflows.
- Built and maintained a centralized configuration application to manage client-specific settings and system-wide preferences.
- Developed secure authentication solutions including an in-house SSO/MFA platform, reducing third-party costs by ~$50,000 annually.
- Modernized the Dependable Rights Management (DRM) platform architecture—an enterprise system for managing licensing, royalties, and intellectual property rights.
- Initiated development of DRM4 on .NET Core 9 with Razor Pages to support future modernization and scalability.

DevOps, Deployment & Reliability

- Streamlined Microsoft Azure CI/CD pipelines to improve deployment speed and reliability.
- Managed the full software lifecycle including release branching, testing, hotfix coordination, and zero-downtime deployments.
- Led development of a scalable Licensing Management System supporting 50,000+ users, reducing licensing errors by 15% and achieving 99.99% uptime.

Data Engineering & Analytics

- Performed data extraction from multiple sources to support reporting, analytics, and operational intelligence.
- Designed and optimized data warehouse architectures for licensing, royalty tracking, and IP-related analytics.
- Implemented Power BI embedding for real-time reporting and integrated SSRS capabilities using SOAP services.
- Developed an SSRS report viewer using Razor Pages to improve reporting accessibility within the DRM ecosystem.

AI, Automation & Innovation

- Initiated R&D efforts leveraging AI, ML, and automation to enhance DRM product capabilities.
- Designed and built AI-powered tools including a DRM Help Desk Assistant and a Financial Q&A Assistant.

Maintenance, Security & Optimization

- Troubleshoot, debugged, and upgraded systems to improve performance, scalability, and reliability.
- Implemented strong security and data protection practices across all applications.
- Analyzed and optimized system resources to improve efficiency and maintain high system stability.

Senior Software Developer (Team Lead) | Dependable Solutions Inc's | El Segundo | Jan 2021-Dec 2025

- Led a team of 8 developers in all aspects of software development, introducing Micro-services, Clean Architecture, Entity Framework, API Gateway, and SSO using IdentityServer4. Project budget was $300,000. Improved team velocity by 25% by implementing Agile methodologies.
- Designed and developed complex web-based applications, maintained system documentation, guided developers, and served as technical supervisor.
- Ensured best practices and quality standards in project development.

Senior .NET Developer (Consultant) | Dependable Solutions | El Segundo | Feb 2020-Jan 2021

- Wrote clean, scalable code using .NET languages, optimized queries, handled bugs, hotfixes, and data change requests on DRM and RTS applications.
- Participated in daily stand-ups, sprint planning, reviews, and merges.
- Collaborated with team members and clients for issue resolution

SSRS Developer (Part-time Consultant) | Dependable Solutions Inc's | El Segundo | Jul 2019-Jan 2020

- Developed and migrated internal reports from Sybase to SSRS, extracted data from data warehouse, created ad-hoc reports, modified stored procedures, analyzed data models, designed reports, and performed QA testing.

Part Time ERP (Accounting Module) Developer | Multifabs Ltd | Gazipur | Jan 2019-Dec 2020

- Designed and developed financial modules using Oracle 11g, AngularJS, Kendo, Web API, MVC.
- Migrated data from Telly ERP, developed financial reports, and integrated modules.

Technical Consultant | Infinity Technology International Limited (ITIL) | Dhaka | Sep 2017-Sep 2019

- Designed web-based remittance management system, E-Recruitment system for BPSC, Naval training management, officer info system, and pension management system using HTML, Bootstrap, ASP.NET Web API2, SQL Server 2017, Angular.js, IdentityServer3, SSRS.

Technical Team Lead | Soft Code | Dhaka | Jul 2018-Jul 2019

- Designed software architecture for ERP, system analysis, database design, complex query development, technical support to developers.

Senior Software Engineer | Soft Code | Dhaka | Jul 2016-Jun 2018

- Designed software architecture, integrated SSRS reporting in ERP, system analysis, database design, technical support, and developed ERP modules for garment manufacturing including financial, inventory, merchandising, production, and supply chain.

Software Engineer | Soft Code | Dhaka | Jun 2014-Jun 2016

- Designed ERP systems, developed HR and Payroll modules, supported clients, fixed bugs, and managed deployment.

Programmer | TRRC, IU (Under HEQEP Project) | Dhaka | Jan 2013-Aug 2014

- Developed university result processing system, debugged code, trained end-users, responded to support requests, implemented systems in production.

Jr. Software Engineer | Computer Services Limited | Dhaka | Sep 2013-May 2014

- Designed data-driven web frameworks, entry forms, views, built client websites, fixed bugs, and tested.

Dot Net Lead Trainer | Sarang Tech | Kushtia | Aug 2012-Dec 2012

- Conducted training, created courseware, mentored freshers, took exams, provided reports, executed responsibilities.

EDUCATION

Master of Science (M.Sc.), Islamic University, Kushtia, Kushtia | 2012

- Field of study: Information and Communication Technology (ICT), CGPA: 3.39 out of 4.0

B.Sc. (Hon's), Islamic University, Kushtia, Kushtia | 2011

- Field of study: ICT, CGPA: 3.42 out of 4.0

Higher Secondary School Certificate (H.S.C), Cumilla Residential College, Cumilla | 2007

- Group: Science, GPA: 4.70 out of 5

Secondary School Certificate (S.S.C.), Sachare Multi Literal High School, Chandpur | 2004

- Group: Science, GPA: 3.5 out of 4.0

SKILLS

- Software Architecture Design pattern and Principal
- C#.NET, .NET CORE
- OAuth2.0, OpenID Connect
- IdentityServer3/4, SAML2, Microsoft Active Directory, SSO, MFA
- Domain-Driven Design: Entities, Value Objects, Aggregates, Agg. Roots
- CQRS, MediatR, and Clean Architecture
- RabbitMQ, MassTransit
- REST API, gRPC, GraphQL
- Yarp ApiGateway, Refit
- Logging, Exception Handling, Health Checks
- Azure DevOps, CI/CD pipelines, Release Automation
- Generative AI, LLM, OpenAI, Prompt Engineering, RAG, VectorDB
- Python, Numpy, Pandas, NLP, ANN
- ASP.NET Web Forms, Minimal API, MVC, Razor, Blazor, .NET MAUI
- Microsoft SQL Server, SSRS, RDLC, Crystal Reports, ITextSharp
- JSON, JQuery, AJAX, JavaScript, AngularJS, Angular, TypeScript
- Data Warehouse, MSBI, ETL, Power BI embedding
- Entity Framework, Dapper, ADO.NET
- AutoMapper, Mapster
- DI Containers (Autofac, Ninject)
- Serilog, NLog, Log4Net
- HangFire, TDD, XUnit, NUnit
- Git, SVN, TFVC
- Azure Cloud Services (Compute, Storage, Networking)
- Cloud Computing
- Terraform

LANGUAGES

- Bangla (Superior/Native)
- English (Advanced Mid)

PERSONAL DETAILS

Nationality	Date of birth	Marital status
Bangladeshi	18 Apr 1988	Married

COURSES

Generative AI Architectures with LLM, Prompt, RAG, Vector DB | Mehmet Ozkeya | Jul 2025-Present

.NET 8 Microservices: DDD, CQRS, Vertical/Clean Architecture | Mehmet Ozkeya | Jan 2024-Present

.NET 8 Backend Bootcamp: Modulith, VSA, DDD, CQRS and Outbox | Mehmet Ozkeya | Jul 2024-Present

Object-oriented Programming | Bangladesh Association of Software and Information Services (BASIS) | Jan 2012-Apr 2012

Software Design and Architecture | BASIS Institute of Technology & Management (BITM) | Dec 2013-Feb 2014

Agile Workshop | BASIS Institute of Technology & Management (BITM) | Feb 2018-Feb 2018

EXTRA-CURRICULAR ACTIVITIES

General Member | Information and Communication Technology Alumni Association (ICTA) | Jan 2022-Present

- ICTA brings former students together to maintain a connection with the Islamic university and fellow graduates.

HOBBIES

- Gardening – Enjoy nurturing plants and creating green spaces.
- Reading – Passionate about self-improvement
- literature and knowledge expansion.
- Learning New Technology – Keen on exploring emerging digital tools and innovations.
- Teaching – Enthusiastic about sharing knowledge and mentoring others.
